

Best Practices 2016-2017

1. Women Empowerment through entrepreneurship
Motto: Swavlamban/Skill for Self Sustenance
2. Women Empowerment through health and hygiene awareness
Motto: Health is wealth

Entrepreneurship is the future of the modern society. Entrepreneurs are people who come out with new ideas and innovations which is the significant for the growth of any business. Empowerment of women entrepreneur is an innovative success mantra for development of the economy like India. Entrepreneurship among women's has led to their empowerment in the country like India. Today, women have acquired a significant position in social life, economic activities and decision making among their families. Earlier, their role in productive work, employment generation and income oriented activities were hindered by many socioeconomic constraints. Hence, a need was felt to formulate policies, which aims for the empowerment and entrepreneurship of women. When women's move forward, the family moves, the village moves and the nation moves. Empowering women through entrepreneurship has become an essential part of country's development efforts due to Economic growth, Social stability and Women development.

Women empowerment through health and hygiene refers to empowering women to be self-dependent by providing them equal access to all the freedoms and opportunities as that of men. In a specific sense, women empowerment refers to enhancing their health position in the society. Empowerment of women has five components: women's sense of self-worth; their right to have and to determine choices; their right to have access to opportunities and resource; their right to have the power to control their own lives, both within and outside the home; and their ability to influence the direction of social change to create a more just social and economic order, locally and Nationally.
